Profile

I build scalable Angular interfaces and Spring Boot services for social protection, education, training, and institutional management systems—with security, maintainability, and real operational workflows at the center.

I'm a Computer Science & Engineering graduate from the University of Dhaka and a Software Engineer at Karooth IT (BD) Limited. I contribute across Angular micro frontends, Spring Boot services, databases, messaging, security, and enterprise integrations.

Skills

Frontend Development: Angular, TypeScript, JavaScript, HTML5, SCSS, PrimeNG, Bootstrap, Responsive Web Design, Component-Based Architecture, Reusable UI Components, Reactive Forms, Angular Routing, REST API Integration, Frontend Performance Optimization

Backend & APIs: Java, Spring Boot, RESTful API Development, Spring Security, JWT Authentication, JPA, Hibernate, OpenAPI / Swagger, Backend Service Development, Secure API Design

Programming Languages: Java, TypeScript, JavaScript, C, C++, C#, ASP.NET

Databases & Storage: MSSQL Server, PostgreSQL, Redis, MinIO, Database Design

Tools & Messaging: Git, GitHub, Postman, RabbitMQ, Elasticsearch

DevOps & AI Tooling: CI/CD Knowledge, Apache Tomcat, Microsoft Azure, Claude, Gemini, ChatGPT, OpenCode, AI-Assisted CLI Workflows

Experience

Software Engineer — Karooth IT (BD) Limited *August 2024 – Present*

- **SNSOP Frontend Portals** – Developed Angular micro-frontend portals for Beneficiary, Payment, GRM, Economic Opportunities, SurveyCTO, Reporting, and Administration. Implemented JWT authentication, route guards, role-based access control, dashboards, and file import/export.
- **SNSOP MIS Backend** – Built Spring Boot APIs for registration, approval, migration, audit, attendance, payroll, and reconciliation workflows.
- **MIMS Frontend** – Designed and developed a scalable Angular frontend for institutional management workflows. Created role-based menus, protected routes, complex forms, data tables, and dashboard views. Focused on Bengali-language usability, responsive layouts, performance, and maintainable components.

Education

University of Dhaka *2019 – 2024*
BSc (Engg.) in Computer Science and Engineering, CGPA 2.87

Bangladesh Noubahini School And College, Khulna *2016 – 2018*
HSC, GPA 5.00

Bangladesh Noubahini School And College, Khulna *2014 – 2016*
SSC, GPA 5.00
