MD Raffiul Islam

Dhaka, Bangladesh | rafiulislam1020@gmail.com | 01799605349 | rafiul-islam | Rafiul-KIT

Profile

Full time Software Engineer with experience in building scalable, responsive, and user-friendly web applications using Angular, TypeScript, JavaScript, HTML, CSS, and modern frontend architectures. Skilled in developing dynamic UI components, reusable design systems, REST API integrations, state management, and delivering high-performance enterprise applications.
Also experienced in backend development with Java, Spring Boot, RESTful APIs, database integration, reporting systems, file storage solutions, and application security. Strong understanding of full-stack development practices with the ability to collaborate across frontend and backend layers to design secure, maintainable, and efficient software solutions.

Skills

Frontend Development: Angular, TypeScript, JavaScript, HTML5, SCSS, PrimeNG, Bootstrap, Responsive Web Design, Component-Based Architecture, Reusable UI Components, Reactive Forms, Angular Routing, REST API Integration, Frontend Performance Optimization.
Backend & APIs: Java, Spring Boot, RESTful API Development, Spring Security, JWT Authentication, JPA, Hibernate, API Integration, OpenAPI/Swagger Documentation, Backend Service Development, Secure API Design
Programming Languages: Java, TypeScript, JavaScript, C, C++, C#, ASP.NET
Databases & Storage: MSSQL Server, PostgreSQL, Redis, MinIO, Database Design.
Tools & Platforms: Git, GitHub, Postman, RabbitMQ, Elasticsearch, Apache Tomcat, Microsoft Azure.

Experience

Software Engineer — Karooth IT (BD) Limited *August 2024 – Present*

- **SNSOP Frontend Portals** – Developed Angular micro-frontend portals for Beneficiary, Payment, Grievance, Report, and Admin modules with JWT auth, route guards, RBAC, Dashboards, and file import/export using PrimeNG, Bootstrap, Chart.js, jsPDF, and xlsx.
- **SNSOP MIS Backend** – Built Spring Boot REST APIs with Java, JPA, MSSQL Server, Redis, RabbitMQ, and MinIO for beneficiary registration, approval, migration, audit, grievance, attendance, payroll, and reconciliation; added Excel/PDF export and scheduled processing.
- **MIMS Frontend** – Designed and developed a scalable Angular frontend for a Madrasa Institute Management Information System (MIMS). Built interactive user interfaces, role-based access control with dynamic menus and screens, route protection, complex forms, data tables, dashboards, and report generation features with a focus on usability, performance, and maintainability.

Education

University of Dhaka *2019 – 2024*
BSc (Engg.) in Computer Science and Engineering, CGPA 2.87

Bangladesh Noubahini School And College, Khulna *2016 – 2018*
HSC, GPA 5.00

Bangladesh Noubahini School And College, Khulna *2014 – 2016*
SSC, GPA 5.00
